MESSAGE

Dear Colleagues, Researchers, Industry Leaders, Academicians, and Students,

It is with immense pleasure and pride that we welcome you to the **Decennial Conference of the Society for the Study of Xenobiotics – India (SSX-India)**, hosted at the beautiful **BITS Pilani, K K Birla Goa Campus**.

As we celebrate a decade of SSX-India, this milestone conference provides a unique opportunity to reflect on our journey, recognize the remarkable contributions of the xenobiotics research community, and envision the future of drug metabolism, pharmacokinetics, toxicology, bioanalysis, translational sciences, biopharmaceutics, CMC, formulation development, analytical sciences and emerging therapeutic modalities.

Over the past ten years, SSX-India has grown into a vibrant scientific platform that fosters collaboration among academia, industry, regulatory agencies, and research institutions. Through scientific exchange, professional networking, and the sharing of innovative ideas, the society has played a significant role in advancing xenobiotic science while contributing to allied drug development aspects and supporting the development of scientists across India and beyond.

This special anniversary conference will bring together distinguished national and international experts to discuss cutting-edge research, emerging technologies, and future trends shaping drug discovery and development. The program features keynote lectures, scientific sessions, panel discussions, poster presentations, and opportunities for meaningful interactions among established and aspiring scientists.

We are especially delighted to host this event at BITS Pilani Goa Campus, an institution renowned for academic excellence, innovation, and its commitment to advancing scientific knowledge. The scenic surroundings of Goa provide an inspiring setting for learning, collaboration, and celebration.

On behalf of the Organizing Committee, we extend our sincere gratitude to all speakers, sponsors, partners, exhibitors, volunteers, and participants whose unwavering support, trust, and enthusiasm have helped SSX-India grow and reach the significant milestone of its 10th edition. This remarkable journey would not have been possible without the collective contributions of our community over the years.

We warmly invite you to join us at this upcoming the Decennial Conference, actively engage in scientific discussions, build new collaborations, reconnect with colleagues, and celebrate ten years of achievement, innovation, and progress in ADMET and CMC sciences advancing drug discovery and development.

We look forward to welcoming you to Goa for an enriching and memorable conference experience.

With warm regards,
SSX-India Council

ABOUT SSX-INDIA

Indian Society for the Study of Xenobiotics (SSX - India) was established in 2016 as a non-profitable association, with the mission to develop and augment the knowledge of DMPK/ADMET science to the Indian scientific community. We conduct annual conferences, workshops and DMPK related short term courses.

Our conference is one of the premiere conferences organized in India specifically in the area of drug discovery and development. We have successfully conducted eight Annual International Conferences and one Asia-Pacific conference of the ISSX covering the areas of drug discovery and development. Eminent scientists from both academia & industry and students actively take part in our scientific deliberations. In addition to the annual conferences, SSX also takes initiatives with the help of academic institutions to augment capabilities of academics and students in our discipline. SSX is on a mission to take the annual conferences to different parts of our country to reach out to broader scientific community.
